

ACTION MEMORANDUM

OFFICE OF THE DIRECTOR

Action Memorandum No. A-67

Date 30 October 1962

TO : Deputy Director (Intelligence)

SUBJECT :

REFERENCE:

1. The Director notes repeated reports from a number of sources on economic trends in Europe. There seems to be continuing unemployment, stockpiling troubles, marketing troubles, and, as it affects the United States, a shift in export-import balance, and balance of payments. These actions might lead to a dumping of European products on U. S. markets, and, in any event, must inevitably have an effect on U. S. economy.
2. Please prepare a memorandum for the Director on the current situation and the economic trends in Europe.
